Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt is acknowledged of the information disclosure statements filed 11/07/2007 and 11/16/2007.

Election/Restrictions

Applicant's election without traverse of claims 1,2, 5-10 in the reply filed on 01/23/2008 is acknowledged.

Claims 3-4 and 11-21 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 01/23/2008.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 2 and 5-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Borges et al (US 2005/0033417 A1).

Borges teaches the coating of an implantable medical device with a composition comprising a basecoat and a topcoat, wherein the basecoat includes at least one active agent that is incorporated into a first polymeric material, the basecoat is affixed to the surface of the medical device, and the topcoat contains a second polymeric material which is affixed to the basecoat for the purpose of controlling the elution rate of the at least one active agent (paragraph 0027). Borges teaches a particular embodiment wherein the basecoat comprises a fluoropolymer and rapamycin and the topcoat comprises an acrylic polymer (paragraph 0030). Borges further teaches the particular medical devices, stents, anastomosis devices and stent-grafts (abstract; paragraph 0032). Additionally, Borges discusses drug combination therapy for the treatment of restenosis and lists possible drugs that may be employed in the invention including rapamycin, cladribine and etoposide [0085 – 0087]. Thus it would have been well within the skill of the ordinary practitioner to claim the instant medical device given the disclosure of Borges et al, and further with a reasonable expectation of similar therapeutic results. As such, the instant claims would have been obvious to one of ordinary skill in the art at the time of invention given the disclosure of Borges et al.
